The Slims Collection is a unique brand of all-natural crackers that can be used in a variety of culinary applications, from breakfast to late-night snacks. Available in three varieties: Banana Slims, Omega Slims (with cranberry and orange) and Cocoa Slims. Each cracker has 100 calories with no trans fat or artificial ingredients. They're great to munch out of the box, but they also go well with cheese, salads and desserts. They are packed for retail in boxes with bold graphics that contain eight individual portion packs. They are also available in point-of-purchase boxes and foodservice boxes.

### Black Rice Grissinotti

Ron and Jeremy Johnson are tireless in their pursuit of genuine foods from the Mediterranean, and they have a knack for finding the ones with the best flavor and texture. A great example is the Grissinotti, long, fat breadsticks (Grissinetti are the thin ones) that are divine. They seem to have found the perfect degree of crispiness and the right flavors: Rosemary, Sesame and a fantastic newcomer, Black Rice. Excellent vehicles for cheese and charcuterie, of course, but excellent on their own too. They had a bevy of other new products as well, including a real Provençal tapenade made with anchovies, capers, olives, extra virgin olive oil, herbes des Provence and sea salt.

They are tied with a large chocolate bow. The chocolate boxes can then be filled with chocolates or other sweets for one's sweet.
